To Whom It May Concern,

My experience with Glenn and his team at Southern Sky Electrical has been great. With the scope of equipment and products that we are responsible for, electrical and communication works are paramount. They have been with us since the factory was built and are taking care of our daily maintenance and ongoing projects within the factory.

Southern Sky Electrical took care of everything from start to finish. From advising on the right equipment to installation, design, testing and support, they went above and beyond and exceeded all of our goals and expectations. We're more than pleased with the service provided and would highly recommend them for any serious electrical installations.

Regards,
